Schaffhausen, February 2026

**Language level before kindergarten entry 2026 (Sprachstand vor Kindergartenstart)**

Dear Parents  
Dear Guardians

Thank you for completing the questionnaire about your child's language level (Sprachstanderhebung) last year.

We would now like to hear about how well your child understands and speaks German. We are sending you the same questionnaire again, so you can assess your child's current German language skills. Please complete the questionnaire online by 28 February 2026. It is available in 14 languages.

**Code: «Code»**

Is your family language Swiss German or High German? Please complete the questionnaire anyway. Every child learns language differently, and your child can also benefit.

Would you like the questionnaire on paper? You can download it from [www.fk-stsh.ch](http://www.fk-stsh.ch).

The kindergarten teachers and teachers of German as a second language (Deutsch als Zweitsprache, DaZ) will be informed about your child's language level (Sprachstand). This will allow them to plan their lessons well, and your child will be able to learn better in kindergarten. By completing and returning the questionnaire, you consent to this exchange of information.

We will be happy to provide you with support in completing the questionnaire.

Many thanks for your valuable assistance!

Best regards
